

What a clean dining room looks like...

The table is completely free of items that do not belong on it

The fan and light fixture are cleaned and contain no dust---check the top of the blades

Windows have been wiped, ledges cleaned, and window treatments washed

Decorations on the walls have been dusted and wiped

Baseboards have been wiped

Table and chair legs have been wiped thoroughly

The sides of the table ledge have been wiped

Check underneath the table to make sure it contains nothing like gum?!?!

Any other furniture in the room has been organized and wiped down

Floors are free of dirt and grime
